DEED OF EASEMENT AND RIGHT OF WAY

THIS INDENTURE, made this _____ day of _____, 2016, by and between the **Borough of Haddon Heights**, a **municipal corporation** organized and existing under the laws of the State of New Jersey having a principal address at **625 Station Avenue, Haddon Heights, New Jersey 08035**, hereinafter referred to as "Grantor" and New Jersey-American Water Company, Inc., a corporation organized and existing under the laws of the State of New Jersey, having its principal office and place of business at 1025 Laurel Oak Road, Voorhees, New Jersey 08043, hereinafter referred to as "Grantee".

WITNESSETH

Grantor, in consideration of the covenants and agreements hereinafter recited and the sum of One Dollar ($1.00), the receipt of which is hereby acknowledged, does hereby give, grant and convey unto Grantee, its successors and assigns, forever, an easement and a free, uninterrupted and unobstructed right of way, in, under, across and over the property of Grantor, subject to the reserved future use of the property by Grantor as hereinafter described, designated as **Part of Lot 4 in Block 62** on the Tax Map of the **Borough of Haddon Heights,** County of **Camden**, State of New Jersey. Said property (except for those portions of the property on which buildings or similar structures have been erected) **Twenty-foot (20') utility water main easement** shall be as described by **metes and bounds** as set forth on **Schedule A** which is attached hereto and made a part hereof, and as shown on the **drawing** entitled, **"20' wide Utility Easement Exhibits,"** which is attached hereto and made a part hereof as set forth on **Schedule B**, for the purpose of installing, laying, operating, maintaining, inspecting, removing, repairing, renewing, replacing, relaying and adding to from time to time pipe or pipes, with necessary fittings, appurtenances and attached facilities,

including laterals and connections (hereinafter collectively "Water Mains") for the transmission and distribution of water.

Grantee, its successors and assigns, and their duly authorized agents, employees and contractors shall have the right to (i) enter in and upon the premises described above with personnel, machinery, vehicles and material at any and all times for the purposes stated above, (ii) cut, prune and remove trees, bushes, undergrowth and other obstructions interfering with the activities authorized herein, provided that Grantee first notifies Grantor of the cutting, pruning or removal of any trees and Grantor approves of said cutting, pruning or removal of any trees, which said approval shall not be unreasonably withheld and (iii) do anything necessary, useful or convenient for the enjoyment of the easement herein granted.

The design of Grantee's Water Mains, including size, location and type of materials to be used shall be at the sole discretion of Grantee. The said Water Mains shall at all times be and remain the property of, and subject to the sole control of, Grantee, its successors and assigns.

Grantor may in the future further develop the property described on Schedule A. Grantor may in connection with such development install or cause to be installed additional utility services and may grant easements therefor to other utilities. Grantor may install macadam, concrete or other surfaces to be used for parking areas, driveways, pedestrian sidewalks and other related purposes, including the installation of curbing, drains, catch basins and other improvements customarily installed in such areas. Accordingly, this easement and right of way herein granted is expressly conveyed subject to the following:

A. Subject to the right of Grantor and others to use the easement area in common with the Grantee for the purpose of installing additional utility services therein and thereon, and to grant easements therefor to other utility companies, to the municipality or the municipal utility authorities having jurisdiction over same, it being understood that the easement and right of way herein granted shall be nonexclusive and shall be used in common with the Grantor and all other persons claiming by, under and through the Grantor and its and their respective heirs, administrators, executors, successors and assigns. Notwithstanding the foregoing, no other pipes or conduits shall be placed within ten (10) feet, measured horizontally, from the Water Main

except pipes or conduits crossing at right angles. A minimum vertical **separation** distance of two (2) feet shall be maintained between **any future** pipes and conduits and the Water Mains **in the easement area** unless a greater distance is specified by laws and regulations of the State of New Jersey. All sewer pipe shall be laid in accordance with laws and regulations of the State of New Jersey regarding separation of sanitary sewers and water mains in effect at the time of installation of the sewer pipe. No excavation or blasting shall be carried on which in any way endangers or might endanger the said Water Mains;

B. Subject to the right of the Grantor, without the prior written consent of the Grantee, to make any and all use of the subsurface of the easement area, the surface of the easement area and the air space above the easement area for any and all purposes in Grantor's sole discretion, specifically including, but not limited to, parking, driveways, pedestrian walkways and other purposes hereinabove mentioned, provided, however, that such usage shall not prevent or hinder reasonable access by Grantee to, and use of, the Water Mains installed by Grantee in the easement area. In the event that any such usage by the Grantor of the subsurface of the easement area, in the sole judgment of Grantee, requires the realignment or relocation of any Water Mains of the Grantee, such realignment or relocation shall be accomplished by the Grantee within a reasonable time after written notice thereof by Grantor, allowing for weather conditions, and at the sole cost and expense of the Grantor or other party acting under authority of the Grantor, as the case may be; and

C. The grant of this easement and right of way shall in no way restrict Grantor from constructing further buildings and structures on any part of the easement area, provided that no such building or structure shall interfere with rights herein granted to Grantee. In the event that Grantor proposes to use the surface of any easement area utilized by Grantee in such manner as to require, in the sole judgment of Grantee, relocation by Grantee of any Water Mains of the Grantee, such realignment or relocation shall be accomplished by Grantee within a reasonable time after written notice thereof by Grantor, allowing for weather conditions, and at the sole cost

and expense of the Grantor or other party acting under authority of the Grantor, as the case may be.

Grantee agrees, by the acceptance of this Deed of Easement and Right of Way that, upon any opening made in connection with any of the purposes of this easement and right of way, said opening shall be backfilled and resurfaced to as nearly as possible the same condition as existed when said opening was made, **and further provided that Grantee shall restore the landscaping to substantially the same condition as existed when said opening was made.**

Grantor does hereby covenant with Grantee as follows:

1. Grantor is the owner in fee simple of the real estate hereby subjected to this Deed of Easement and Right of Way and has good title to convey same, having acquired said real estate from _____ by **Final Decree of the Chancery Court filed September 29, 1939** and recorded in the office of the **Recorder of Deeds of Camden County in Deed Book 894, Page 135**, et. seq., a copy of which is attached hereto as **Schedule C** and made a part hereof;
2. Grantee shall quietly enjoy the said easement and right of way, except as set forth herein;
3. That the premises hereby subjected to said easement and right of way are subject to **no** mortgages.

IN WITNESS WHEREOF, Grantor and Grantee have duly executed this INDENTURE, all as of the day and year first above written.
