About Magnum Computer Recycling

Facts about Magnum & electronic recycling in New Jersey.

Founder BIO | Our STORY | The Magnum Recycling TEAM

Founder, Thanks for Being Green, LLC & Magnum Computer Recycling

John Martorano, Jr. is the founder of **Magnum Computer Recycling (Thanks for Being Green, LLC)**, the leader in providing computer and electronic recycling services to businesses in New Jersey and Pennsylvania. Established in 2006, this growing company is dynamic and innovative, offering results-driven, eco-friendly methods for reusing and recycling electronic parts and devices.

As a visionary in the world of computer recycling, John has embraced a philosophy of environmental protection and sustainability. He oversees all strategic planning, operations, business functions and day-to-day aspects with the company. He is also personally committed to educating businesses and individuals about the importance of electronics recycling. At **Magnum Computer Recycling**, John works closely with area businesses to help establish safe, compliant, environmentally friendly methods to reuse and refurbish those materials and components.

John's inspiration to launch **Magnum Computer Recycling** came from nature itself. While he was hiking in the woods several years ago, he unexpectedly discovered a large pile of discarded, used computer monitors. Frustrated and saddened to find this type of pollution in the wilderness, he was compelled to find a better, easier way to dispose of electronic waste. After conducting research, he learned that most organizations and schools had difficulty with properly discarding old electronic parts. At that point, John decided to create an eco-friendly company with a mission to stay as "green" as possible and collect used and unwanted electronic equipment, channeling them to the correct agencies for proper recycling or disposal.

John's overarching goal is to raise the public's awareness regarding the critical issue of recycling computer equipment and related electronics. This includes hard drives, monitors, keyboards, servers, TVs, wires and telecommunications hardware as well.

Since its initial launch, **Magnum Computer Recycling** has been on an aggressive growth path with no signs of slowing. Today, John works to create strategic partnerships with local governments, townships, schools and large businesses.

RESOLUTION 2013:113

POLICIES AND PROCEDURES REGARDING POST-ISSUANCE COMPLIANCE OF FEDERAL TAX REQUIREMENTS REGARDING TAX-EXEMPT DEBT ISSUES

WHEREAS, the Internal Revenue Service is now requiring issuers of tax exempt obligations to have adequate policies and procedures to monitor the arbitrage requirements and non-qualified issuer requirements; and

WHEREAS, the Borough of Haddon Heights is subject to these requirements since the Borough annually issues tax exempt obligations; and

WHEREAS, the Borough of Haddon Heights Mayor and Council Members wishes to fully comply with the requirements established by the Internal Revenue Service;

NOW, THEREFORE, BE IT RESOLVED that the following procedures are hereby adopted:

I. ARBITRAGE

A. Obtain and retain a copy of IRS form 8038G or 8038GC;
B. Obtain and retain a copy of the Non-Arbitrage Certificate;
C. Determine whether an exception to arbitrage has been met, based on the following criteria:
    1. Small Issuer;
    2. Six-month spending exception;
    3. Eighteen-month spending exception;
    4. Two-year construction exception
D. If not, then determine:
    1. Was a bond year chosen in the non-arbitrage certificate? If not, then discuss with the financial advisor and/or auditor the most advantageous period to choose;
    2. Should an arbitrage calculation be prepared annually, or upon the fifth anniversary of the bond year?
        a. Consideration should be given to the fact that positive arbitrage must be rebated to the IRS 60 days after the end of each fifth bond year, or 60 days after all proceeds are expended
        b. Prepare, or contract to have prepared, the arbitrage calculation;
        c. Rebate any positive arbitrage to the IRS (if unspent proceeds still exist, then only 90% of the liability must be rebated);
E. The Chief Financial Officer shall be responsible for monitoring the above compliance, as well as maintaining receipt (including investment earnings) and disbursement records in sufficient detail, such that compliance can be met.

II. NON- QUALIFIED ISSUE MONITORING

A. Determine if the issue, or a portion of the issue, was used to finance local government facilities;

B. If not, then no future monitoring is required;

C. If "yes," the following must be performed until the issue is fully paid:

1. Monitor the facility that was constructed or renovated with the proceeds of the issue to determine whether any of the following conditions were met:
    a. Sale of the facility;
    b. Lease of the facility;
    c. Non-qualified management contract;
    d. Non-qualified research contract;
    e. Special legal entitlement;
2. If none of the conditions were met, then no further action is required;

D. If any of the conditions were met, then the following must be addressed:

1. Did any of the above-mentioned events, either individually or collectively, represent greater than 5% of the use of the facility?
2. If "no," then nothing further is required;
3. If "yes," remedial action (an action that causes the issue to meet the private activity test, i.e. less than 5%) must be taken;

E. The Chief Financial Officer, in conjunction with the Mayor/Finance Director, will be responsible for monitoring the above compliance. Bond Counsel should be consulted when necessary
