- A pre-construction meeting was held at Borough Hall on February 12, 2014.

FY 2013 Road Program – Resurfacing of Lippincott Avenue

- The project consists of resurfacing Lippincott Avenue between Station Avenue and King's Highway with replacement of curb and concrete gutter in select areas.
- We have tabulated the four (4) bids received on September 11, 2013 for the above-referenced project and found the low bidder to be Bogey's Trucking and Paving, Inc., 1779 Delsea Drive, Deptford, New Jersey. Bogey's Base Bid was in the amount of \$95,868.00 representing items 1 through 24 of their Base Bid.
- A Resolution of Award for Bogey's Trucking and Paving, Inc. was passed at the September 17, 2013, Council Meeting.
- A Preconstruction Meeting was held at the Borough Municipal Building on Tuesday, October 15, 2013. Notice to Proceed will be issued with a start day of Monday, October 21, 2013.
- Construction has commenced with the majority of work complete. Our office has begun to prepare the punch list for remaining items to be addressed. Payment Application #1 has been processed by our office and submitted to the Borough for payment.

FY 2013 Road Program – Reconstruction of West High Street

- It was originally anticipated that this project would be publically bid at the same time as the Lippincott Avenue project, however following the collection of additional asphalt core samples it is this office's opinion that resurfacing of West High Street is not viable due to instability of the underlying asphalt base material.
- Base on the construction funding allocated for West High Street, our office is in the process of completing the plans and specifications for the full depth reconstruction of West High Street from Bellmawr Avenue to approximately 760 feet past the first offset intersection of Lake Street. It is anticipated that the project will be advertised for bids in the winter of 2014, and ready to be awarded in the spring of 2014.

Tax Map Maintenance/Revisions for the Borough of Haddon Heights for Tax Year 2013

- As requested by the Borough Tax Assessor, Remington & Vernick has submitted a proposal to perform Tax Map Maintenance services for the tax year 2013, in conformance with the Camden County Board of Taxation. Services would be completed and documents submitted to the Camden County Board of Taxation no later than January 2014 with a total cost not to exceed \$3,000.00. It is our understanding the 2013 Budget contains a \$3,000.00 line item under the Tax Assessor. The costs associated with the Remington & Vernick services would be passed through this office with no mark up or handling costs. A copy of Remington and Vernick's October 31, 2013 proposal for the above referenced services was attached to our December 2013 report.
- In addition a draft Ordinance for the purpose of creating an escrow structure to cover costs for future Tax Map/GIS updates associated with Planning Board applications is attached for consideration. If no objection, our office will coordinate with the Borough Clerk to have this introduced and adopted in 2014.

ORDINANCE No. 2013 - _____

AN ORDINANCE OF HADDON HEIGHTS BOROUGH, CAMDEN COUNTY, NEW JERSEY: RELATING TO DEVELOPMENT REGULATIONS, PARTICULARLY PROVIDING FOR A TAX MAP/GIS DATABASE UPDATE FEE.

ARTICLE I: PURPOSE

It is the purpose of this ordinance to impose upon developers the costs incurred by HADDON HEIGHTS BOROUGH in updating the municipal tax map/GIS database as a result of the approval of various subdivisions or the creation of any new lots within HADDON HEIGHTS BOROUGH. Said costs are directly related to the development procedure, and thereby HADDON HEIGHTS BOROUGH determines that they should be borne by the developer/applicant for all said subdivisions.

Tax Map/GIS Database Update Fees: Each applicant and/or developer for any approval which results in the creation of any new lots, revision of any existing lots, and/or other alterations to the tax map/GIS database, shall be responsible for paying all reasonable charges incurred by the HADDON HEIGHTS BOROUGH Engineer in updating said tax map/GIS database. These costs shall include, but not be limited to, update to the GIS database, revisions to existing tax map plates, creation/addition of new tax map plates, appropriate revisions to the Key Map(s), reprographic services for applicable Borough, County and State submission copies, as well as any reasonable shipping and handling fees involved.

ARTICLE II: COSTS

Once final subdivision and/or new lot approval has been received, an escrow account shall be established by the applicant and maintained by HADDON HEIGHTS BOROUGH for the express purpose of maintaining the tax map/GIS database. No construction permit shall be issued until said costs are posted with HADDON HEIGHTS BOROUGH, as outlined below:

- \$75.00 per lot for minor subdivisions (five [5] lots or less)
- \$65.00 per lot for six (6) to twenty-five (25) lots
- \$55.00 per lot or per change for each lot/tax map revision due to deed discrepancies, lot line adjustments, easement detailing, ownership labeling, acreage calculation and labeling, street name changes and other minor revisions
- \$800.00 per commercial site plan (detailing of commercial site needed on separate sheet)
- \$1,000.00 per condominium site plan plus \$20.00 per unit for residential condominium projects (detailing of condominium site needed on separate sheet)

If any portion of the escrow account remains unused following the appropriate revisions to the tax map/GIS database, it shall be refunded to the applicant.

In the event that any application for development is denied and the application is no longer pending before the respective Board, then any portion of the aforementioned fee which has not been expended by the engineer responsible for maintaining the tax map/GIS database shall be refunded to the applicant.

ATTEST: _____
Kelly Santosusso, Deputy Borough Clerk

**Memorandum of Understanding (MOU) entered
into by the following
Municipal Police Departments in Camden County:**

This Memorandum of Understanding (MOU) is entered into by the following Municipal Police
Departments in Camden County:

Barrington Police Department
Bellmawr Police Department
Berlin Twp Police Department
Brooklawn Police Department
Chesilhurt Police Department
Clementon Police Department
Haddonfield Police Department

Haddon Heights Police Department
Lindenwold Police Department
Oaklyn Police Department
Pine Hill Police Department
Runnemede Police Department
Somerdale Police Department
Woodlynne Police Department

and shall be referred to as the Memorandum of Understanding of the Camden County Chief's RMS (Records Management System,) or "The MOU."

OBJECTIVES:

The objective of the Camden County Chief's RMS is to establish a long term working relationship to enhance public safety in Camden County by recognizing the need for resources sharing and cooperation between police departments. Today's public safety realities have highlighted the need for agencies to work together to pool resources and create the conditions for more efficient use of resources and better information sharing.

It is not the intent of this agreement to create a "joint" records management system, but a pooled information technology resource within which the separate and distinct records management systems of each member agency are deployed independently of each other. Any protocol allowing one agency to query another agency's records management system shall be controlled by the member agencies that own the data.

HOST AGENCY & REDUNDANT BACK UP / DISASTER RECOVERY FACILITY:

The Host agency shall provide a physical location for the servers that host the Camden County Chief's RMS. In addition, the Host agency shall provide power, network connectivity, and physical security of the site for the computers to reside. The personnel that work at the hosting shall provide system administrator services. However, to the extent possible they shall be fire walled or prevented from actually reading (accessing) the 'content' of the data – through measures like passwords, data encryption, role-based-access, and the like.

The host agency in conjunction with a third party and/or another participating agency shall be responsible for maintaining a redundant back up / disaster recovery site where they shall provide power, network connectivity, and physical security of the site for the computers to reside.

COMPENSATION TO THE HOST AGENCY:

Initial Fee of \$6,000 per agency to cover hardware and software costs, repairs and maintenance towards the system will be divided among all the towns involved in the project once initial funding is exhausted. After funds exhausted each town which split the costs involved for maintenance or upgrades.

GOVERNANCE:

The Camden County Chief's RMS shall be overseen by a Control Group. The Permanent Chairman of the Control Group is the Chief of the Host Agency. The membership of the Control Group will consist of the Chief's of all the member agencies.

The overall objective of the Control Group is to assist the Chief of the Host Agency, or his or her designee, in establishing policies and developing guidelines for the implementation and operation of the Camden County Chief's RMS and to demonstrate the effectiveness of shared management decision making in the operation of the Camden County Chief's RMS.

Members of the Control Group will serve as a working group, which will meet on a periodic basis. The working group may, as appropriate, establish subcommittees comprised of other staff within the participating agencies to address special issues.

DATA STEWARDSHIP:

Member agencies shall maintain ownership of all their data and information at all times and can opt out of sharing data with other member agencies, if they so desire, while still participating in the Records Management System. Any request for access to information hosted by the Camden County Chief's RMS that is not authorized under the terms of this MOU shall be referred to the member agency that owns the information that is the subject of the request. Information shall not be made available to any requestor without the approval of the owners of the information unless required by law. Member agencies understand and agree that the restrictions established by this provision may not apply when responding to orders of the court or statutorily authorized requests.

In the event that the host agency receives an Open Public Records Act request for information contained in the Camden County Chief's RMS that the host agency does not own, the host agency shall respond as required by law.
