MAYOR'S MESSAGE:

Dear Neighbors:

The beautiful fall season is upon us as we approach October. Our kids are back in school, fall sports are in full swing, and many town events that we all look forward to and enjoy are on the horizon.

Your government continues to work hard maintaining our Borough as a desirable and safe place to live. Doing so reflects well on our property values and on our standing as a community. As I have recently reported, and as Council President Lange reports on later in this issue, we have reached a terrific sound solution with respect to new lighting at the soccer fields at Devon Avenue. Many people worked hard to make this project a reality. In a town where our budget is only approximately \$8 million – to run the entire town for a year – dealing with an unexpected \$400,000 requirement is never easy. Through good business practices and cooperation we found a way to make it work without having to pass along a massive tax increase.

We recently had a manhole collapse on Highland Avenue, which required

emergency safety procedures to be applied as well as emergency repairs. Councilman Vince Ceroli worked closely with our Department of Public Works to make sure that these emergency repairs could be completed quickly and safely. Funding was secured from capital reserves to facilitate this repair. These are examples of your local government working behind the scenes does in the background on a daily basis to keep our town's assets in good shape.

On October 7, our Neighbor's Night Out Committee will hold its annual Bonfire at Hoff's Park (event will be contingent upon the NJ State Forestry conditions report.) The Town Wide Yard Sale is coming up on Saturday, October 8th (raindate will be October 15th) and is sponsored by the Library. Also on October 8th, the Revolutionary War Encampment will take place by the Cannons between 10 a.m. and 4 p.m. Our Parent Teacher Group is preparing for the always exciting event, Hoots-n-Howls on Saturday, October 24 on Station

Avenue. These are just a sampling of the many events approaching this fall that help contribute to our great sense of community. As always, I would like to thank all of our volunteers who contribute their time and talents to ensure a good time for all attending these events.

I would also like to recognize our Neighbor's Night Out Committee for collaborating with our Farmer's Market to add a nice new enhancement – the Kid Time at the Market Program. This unique collaboration offers family friendly programming at the Farmer's Market; it has been great to see so many families participate in this. Thank you to all who have been involved in this creative new idea!

Finally, I have to extend my deepest thanks and appreciation to our now-retired Police Chief Richard Kinkler. Chief Kinkler served our Borough, our residents, and our country with the highest distinction and exemplifies the highest standards of professionalism and duty. I am certain we will all miss working with

him and wish him the best of luck in his retirement. I also welcome and wish the best of luck to longtime Haddon Heights police officer Bruce Koch, as he begins his tenure as Chief of Police.

Enjoy the beautiful fall season and as always, please feel free to contact my office if there is ever anything your government can do to help you. I am open to your ideas and/or suggestions. I can be reached at 856.547.7164, ext. 27 or at jmerryfield@haddonhts.com.

Mayor Jack Merryfield

Note from your Haddon Heights' Tax Assessor

New Jersey Law requires the Tax Assessor's office to keep all property assessments current. The Assessor's inspector may visit your property if the property owner or their contractor obtained a building permit to build a new building, or update, improve, expand, remodel, redecorate, rehab and/or demolish an existing building located in Haddon Heights.

Please cooperate with the Assessor's inspector who will perform an interior and exterior examination of your home or business, and request information to confirm the type of work done, or to be done, the cost of the project, and the date the job was, or is to be completed. This inspection is in addition to any inspection(s) required by the Haddon Heights Building Inspection Department. The inspector will visit your property unannounced in the day, early evening, or on a Saturday. This method of inspection is very cost effective and I greatly appreciate your help allowing the inspector to collect the data required. The inspectors who work for the Tax Assessor's office are Judith Shoemaker (Judi), Jeffery Scott Pierson (Scott), and myself. Each inspector will wear an official Haddon Heights Borough ID Badge.

If you have any questions or concerns please do not hesitate to call Tax Assessor's Office at (856) 547-7164 ex 33. Thank you for your anticipated cooperation with the inspection process.

Thank You,
 Thomas J.

Flu Shot Clinic for Seniors

The Borough is holding a Flu Shot Clinic on **Tuesday October 18th from 2:00 - 4:00 pm. Located in the Borough Hall Auditorium, 625 Station Avenue.**

The flu causes about 36,000 deaths each year and is directly related to about 226,000 hospitalizations. The risk of flu-related complications is even more serious for senior citizens and those with a chronic health condition, such as heart or lung disease. The Center for Disease Control states that "annual influenza vaccination is the most effective method for preventing influenza virus infection and its complications".

Medicare Part B covers the flu shot for seniors, and most other insurance companies fully cover the flu vaccine. All you have to do is come in, fill out a screening and consent form, provide us with your medical insurance information, get the shot and go about your day!

For Rent: Really Little Real Estate

Have you dreamed of opening up your own "little shop?" The smallest store in South Jersey is up for rent at 616-1/2 Station Avenue. It's about 250 square feet. In its past it's been a shoemaker, baseball card shop, plant store, dress shop, and most recently a piano studio. Call Dave at 856-437-9052 for more information.

- DO NOT mix leaves and brush. Your can(s) will NOT be collected if it is mixed. When the trucks are taken to be dumped the dump can and will refuse our trucks if there is anything mixed in that is not allowed to be. We thank you in advance for your cooperation.

Revolutionary War Encampment

THE BRITISH ARE COMING! THE BRITISH ARE COMING!

Saturday, October 8, 2015, 10 a.m. to 4 p.m., rain or shine

The British in turn ransacked homes and businesses, including the Glover House and Glover Fulling Mill which had been recently built. The British stole food and livestock and ravished Patriot women.”

John Hinchman III, whose family lived in the Hinchman-Hurley House for 100 years, sided with the British after the Declaration of Independence, reading a protest at the Gloucester County Courthouse. He was literally ‘run out of town,’ and his property near the Barrington Circle seized.”

Three patriots’ houses remain in Heights: Colonel Joseph Ellis House on Sycamore, John Glover House on Sylvan and Chalkley Glover House on New Jersey Avenue. Glover joined the Patriot cause and was “read out” of his Quaker Meeting for his active role. Historical markers describing the history of these houses have been placed, with the owners’ permission, by the Haddon Heights Historical Society. A brochure is available at the Library.

The Encampment is free, rain or shine. For more information: Rose Fitzgerald, 856-547-3950

Haddon Heights is a registered town in the Crossroads of the American Revolution, a National Heritage Area between Philadelphia and New York. “The Revolutionary War was a conflict of few great battles but many skirmishes. Troops fought in this corridor to protect or sabotage movement between these cities. Local militia harassed the British by destroying bridges, including the corduroy bridge over King’s Highway, cutting down trees to block roads and firing into the lines.

Circolo Italiano

The monthly meeting of Circolo Italiano of South NJ will be held on Monday October 10th from 7:30 to 10:00 p.m. at the Haddon Heights Borough Hall in the Community Room; 625 Station Ave., Haddon Heights, NJ. Celebrity chef & Gourmand World Cookbook award winner, author Maria Liberati will present her experiences via stories & readings followed by a book signing of her award winning book series THE BASIC ART OF ITALIAN COOKING. Her career as an international super model took her to countries all over the world, but especially to Italy, where her family's vineyards are located in Abruzzo. There her love of the culinary arts flourished as she researched wonderful family recipes. Join us to hear her entertaining stories & sample some desserts from her cookbook: THE BASIC ART OF ITALIAN COOKING: HOLIDAYS AND SPECIAL OCCASIONS.

Italian-Americans ... Pride and Passion for Our Culture

Circolo Italiano of South Jersey is just one of the many groups formed to show the cultural wealth and beauty of their heritage.

Since recent generations in many cases are removed from the celebration of traditions that were an integral part of the their parents' and grandparents' lives, many are hungry for information about their rich culture.

Circolo strives to educate at their meetings throughout the year by presenting educational lectures and films. Professor John Giannotti is a frequent guest lecturer and has recounted his experiences traveling in Italy which resulted in programs ranging from the economic situation in the country and how it has affected their cultural and political life, to his visits to what he termed quiet treasures that the average visitor to the country never sees. Professor Deb Miller has informed the group on a range of intriguing topics from Renaissance Art to the Plague or Black Death in seventeenth century Italy.

Entertainment abounds in the schedule for each season. Talented musicians have performed playing instruments ranging from violin , to

mandolin, and accordion , not to mention the array of singers that have presented us with songs made popular from Sinatra to Pavorotti.

What is a celebration of Italy without a mention of food? After each meeting, members and guests are invited to "mangia" as they are treated to goodies, often homemade, from pizzelles to anisette cookies to panettone and much more.

The comfort afforded by being with others whose names one recognizes from their past , the comparing of recipes, the telling of anecdotes about relatives and their often quirky customs, and tragically, the sharing of the loss of a sense of their rich heritage. This loss occurred when second generation Italian children were told to adopt American customs and ways, were not made to learn the language of their parents and often hid their lunch of salami, peppers and eggs or gravy seeped meatball sandwiches.

This is a significant year for the group, as this year Circolo Italiano of Southern New Jersey celebrates their FIFTY YEAR ANNIVERSARY.

Luckily now we know the value of embracing all cultures and to that we say "VIVA ITALIA!"

Haddon Heights Good Neighbors

Throw kindness around like it was confetti
-Author Unknown

When you read this quote, you start to understand how the Haddon Heights Good Neighbors Program operates. This fiscal year, we have helped over 9 families (21 individuals) with rent, security deposits, gift cards, and utility bills. In addition, we distributed 20 John's Friendly Market food certificates to 12 families for Thanksgiving or Christmas. In order to help spread our kindness with confetti, we work with other town organizations including Saint Vincent de Paul of St. Rose, the Haddon Heights Public School nurse, and the Sons of Italy. "Throwing kindness" is so much fun when it helps so many people.

Haddon Heights Good Neighbors, HHGN, was formed in 1979 to provide short-term financial assistance of a material nature to residents in need. As an organization of the people, by the people, and for the people of Haddon

Heights, our goal is to help members of our town when they are struggling. After all, shouldn't a sense of community come with a sense of responsibility?

One way of helping HHGN to accomplish its goal is to join the organization. We typically meet the 1st Wednesday of January, May, September, and November. Meetings are held in Borough Hall at 7:00 PM. New members are always welcome.

Another way to help is make a donation. Your contribution will be used to assist residents in our community and whether it goes toward rent, utilities, groceries, or home repairs, we investigate every request and independently determine its worthiness. Our hands-on approach ensures that money goes where it is needed the most.

During October, you will be receiving our yearly fund drive letter. Please make a contribution and help us continue to "throw kindness as if it were confetti." No donation is too small.

BAYOU SEAFOOD

509 BLACK HORSE PIKE HADDON HEIGHTS, NJ. 08035

Phone: 856-547-7455

OPEN Monday - Saturday 11:00 - 8:00pm & Sundays 11:00 - 5:00pm

Many of us have looked for a good seafood take out after the store in 500 Plaza, on the Black Horse Pike, closed. I was pleased to hear from the people at P & S Ravioli that a new owner had opened a great seafood store next door. After trying the crab cakes and shrimp, I agree. Joe, the chef, is very proud that he makes his crab cakes with lump and jumbo lump crabmeat. He believes his steamed and fried shrimp are the very best. Want crabs? Bayou Seafood is the best place to go short of a drive to Baltimore. Salmon is offered broiled, Cajun style, with teriyaki or with sweet chili. Chef Joe makes four kinds of soup each day from scratch and he is especially happy to offer his signature crab bisque.

Party specials are available for football gatherings and tailgating. Ask for the 50 wings and 50 shrimp special that comes with two 20 oz. sodas for \$69.99. All fresh seafood is available to take out to cook at home or cooked by Joe just for you. With sides of fries, breaded broccoli, spring rolls, steamed vegetables, roasted potatoes, and Cajun rice available, Bayou Seafood can make for a quick, easy, and delicious mid-week dinner too. For 2 dollars, Bayou seafood will deliver to your home or office.

The owner is grateful to all his new customers who have been generous in their recommendations to friends. Check them out on YELP!

Our "Small Explorers" Need a Place to Play

CAN YOU HELP? Hoff's Park Playground is a beloved area in the heart of our community. Named for Norman Hoff, a popular Haddon Heights High School teacher, coach, and summer camp director, the playground originally offered the usual "old school" playground equipment. The swings and monkey bars remain popular.

In the 1990's, a large, colorful play center with slides, climbing features, bridges and activity panels was donated by the Hoff-Robinson family and the Friends of Hoff's Park fundraising committee. Numerous new picnic tables and benches made the area family friendly. In 2010 a basketball goal and concrete half court were installed.

We are excited to begin planning another addition to Hoff's Park. Purchasing equipment specifically for toddlers is the next Parks and Rec Department Project. Keeping with tradition, turning this wish into reality will be dependent on community support and donations. Together we can do it!

Here's how you can help our "Small Explorers" enjoy a new play area:

- Come to a one hour community input session on Wednesday, September 28 at 7:30 pm in the cabin.
- Make a donation to the newly established Parks and Rec Reserve Fund. Checks payable to Borough of Haddon Heights, memo Parks reserve/tots in any amount are appreciated.
- If you are affiliated with any grant giving organization please consider our project.
- Follow the Small Explorers at Hoff's Park Facebook Page for updates on project plans, fundraising opportunities and family activities

Open House

We would like to promote our first Open House on Thursday November 3rd. The event begins at 7 pm in the Haddon Heights High School auditorium and will highlight

the attributes that designate Haddon Heights High School as a High Performing School District and is open to all ages. Academic programs, course offerings, athletics and student activities, performing arts and facilities are just some of the topics that will be discussed. We will provide an informative and entertaining slide show of some of the activities that occur during the school year along with a few testimonials by successful Haddon Heights Alumni. In addition, current students, alumni and parents will be speaking on their experiences at "Garnet Country". The night will be capped off with a tour of the building along with some light refreshments in the cafeteria.

Freshman Orientation

Freshmen Orientation night was a great success with well over 300 students and family members attending. The halls were decorated with posters and balloons and music was playing as students entered the auditorium. The opening presentation contained a wealth of information ranging from academic offerings and expectations to clubs and activities along with tips to help freshmen succeed. Students and parents were able to meet the guidance counselors, department chairpersons, and administrators. After the presentation, students walked through their schedule and tried out their lockers. The highlight of the tour was in the cafeteria where staff and student representatives from all the clubs and activities gathered to welcome and encourage the freshmen to get involved. The Heights students were very energetic and welcoming. Overall, it was a very successful evening.

Shedding Light on our Field Complex ... The Value of Teamwork

By Kathy Lange, Director of Parks and Rec

You may have heard that new lights are coming to the McCullough Field Complex on Devon Ave. What happened?

During routine Borough light maintenance, an electrician on a lift noticed a previously stable wooden light pole was deteriorating from the very top interior. Working with our engineer, we determined that other poles, though also appearing fine at ground level, were showing similar cracks and posed an immediate safety hazard. It was determined that if the top weight were removed from the poles, the fields could be used. The bigger picture would be to expedite a complete light replacement project, which was already in preliminary investigation. This would require pushing the project schedule up while adhering to regulations and using common sense funding to keep costs down.

Phase One: With Council approval, an emergency appropriation of \$11,000 was expended for the removal of light standards. When the fields were able to sustain use of a lift, and the weather cooperated, removal was accomplished and the fields were able to be safely reopened.

Phase Two: Next up was a time consuming exploration of all possible lighting options requiring engineering, discussions with light vendors, outreach to field users for input and contributions and, most importantly, an analysis of potential project costs and the subsequent effect on the town budget and tax paying residents. Legislation to support HHSC fundraising effort at the venue was passed. The HH Soccer Club rented lights for

the season while the Borough Engineer put out project specifications for bid. The ensuing responses from contractors made it obvious that substantial funding was needed to move forward. The Borough went back to the drawing board, stakeholders were kept up to date and the HHSC, as the main light users, amped up their fundraising. The specs were re-examined for possible cost savings including considering construction in two phases to allow for staggered field closing and financing over a longer period of time. (It turned that this option would actually add about 20% more to the final costs) Parks and Rec remained committed to off field perimeter lighting and removing the light poles from the center of the complex. Doing this will support better grass growth thru seasonal field rotation, facilitate player and spectator flow between the fields and open up space for the increasing number of recreational soccer players. In addition we gain increased lighting (from 5 to 25 foot candles), more energy efficient fixtures and better overall control of light use. This essential Phase 2 process took time to ensure every action and timeline complied with all state and local laws, to allow for ongoing stakeholder input and to continually monitor the municipal debt load and bond rates so that we could finance the project as advantageously as possible.

Phase Three: Following all mandatory legal conditions and with the teamwork of Council, Mayor, Solicitor, the Borough CFO, Bond Counsel, Parks and Rec and HHSC, the project funding options were extensively researched, worked and re-worked. With

the HHSoccer Club's generous \$51,000 donation and their commitment to help with electric supply costs, we finally were able to secure reasonable funding with limited taxpayer cost. (About \$1.17 a month per household for about 10 years) The financing ordinance went to Council for public comment and approval. Even so, finding grants and donations remains a goal. Then the entire project needed to be rebid based on regulatory time frames and also go to Council for public comment and approval. Only then could we meet with the approved contractor and nail down particulars.

Phase Four: On November 1, with the majority of the High School and HHSC regular season schedule completed, and with proper notice of the State DEP Green Acres Program, the McCullough Soccer Complex on Devon Avenue will be officially temporarily closed and become a major construction zone.

We ask everyone to comply and stay out of the area so that work with high voltage wires and heavy equipment can proceed safely and without interference. With good luck and the cooperation of Mother Nature, we anticipate reopening the fields in the Spring.

This project took time and planning effort but our hometown gains a more versatile and well lit field complex for our residents. As our "community backyard", having such a venue adds value to our town properties and attracts young families to settle in Haddon Heights.

Storm Water Pollution

Storm water pollution is one of N.J.'s biggest threats to clean and plentiful water. With everyone's help we can share the responsibility by making small, easy changes in our everyday lives. There are many common pollutants that we can help keep out of the storm water. This all adds up to cleaner water and it also saves on the high cost of cleaning up once the water is dirty.

Storm water is water that is generated when precipitation from rain and snow melt. It flows over land or impervious surfaces such as paved roads and parking lots and does not seep into the ground. This run off transports pollutants such as trash, grass, and other things which gather on these surfaces. The water and debris make their way to inlets and then flooding will occur. As a resident, business, or other member of the Haddon Heights community, it is important to know these easy things you can do every day to protect our water.

- Properly use and dispose of hazardous products (there are hazardous waste recycling days that are normally set up each year, please contact the Public Works Department for a list of those days 856-546-2580)
- Keep pollution out of storm drains (do not let sewage or other wastes flow into a storm water system)
- Clean up after your pet (pet waste pollutes our waters when left on the ground, animal waste contains high concentration of nutrients as well as bacteria and disease-causing microorganisms that can cause problems)
- Don't litter
- Dispose of yard waste properly
- Limit your use of fertilizers and pesticides

Thank you for doing your part to keep Haddon Heights waters clean. For more information please contact the following: visit www.njstormwater.org or www.nonpointsource.org. First Presbyterian Church

The First Presbyterian Church of Haddon Heights offers Sunday School for all ages. A nursery is also provided for the little ones. We invite you and your family to join us for a warm and friendly Christian experience. Sunday School classes for children and youth are held on Sunday morning during the worship service from September through June. Children leave for class after the Children's Sermon. Through the Gospel Light lesson series, our Pre-K - K Class will be lead to experience God's love and know Jesus. The 1st through 4th Grade Class will study the Bible section by section and develop a deep understanding of God's Word. The 5th through 7th Grade Class will be challenged and inspired with God's love and Biblical truth in a way that helps them relate to their everyday life. Our Teens meet on the 2nd and 3rd Sundays at 10:00 am and focus on life in today's world and have the opportunity to reach out to help others.

The Adult Sunday School Class is held Sunday mornings at 9:00 in Room 2 and is led by Pastor Eliza Jaremko. This season's theme "Half Truths: God Helps Those Who Help Themselves and Other Things the Bible Doesn't Say." We've all heard (and probably even said) the phrases: "Everything happens for a reason," "God won't give you more than you can handle," or "Love the sinner, hate the sin." These simple phrases sound Christian, but aren't found in the Bible. They capture some truth; yet miss the point. Join us this Fall, in the search for truth and meaning in difficult life situations. Adult Sunday School begins September 18th. Classes are held in Room 2 on Sundays at 9am and lead by Pastor Eliza. We are located

at the corner of Seventh and Green Streets. Please call us at 856-547-6139 for more information or check us out at www.fpchaddonheights.org.

Sustainable Haddon Heights

SUSTAINABLE HADDON HEIGHTS COLLECTING PLASTIC CAPS

Sustainable Haddon Heights is pleased to announce that they are now collecting plastic bottle caps. Most residents do not know that the caps that come on so many products such as milk cartons, detergent containers and liquids such as soda and water cannot be put in the recycling bucket. To help keep these caps out of the landfill waste, Sustainable Haddon Heights is now collecting them. Please save the caps for the group and bring them to the farmers' market or to the library both now as well as after the market closes the end of October. This is the information about the program: The Ecocap Movement, a Japanese nonprofit organization (NPO) in Yokohama, Kanagawa Prefecture, established in 2007, has been engaged in the donation of polio vaccines to children in developing countries through the collection and sale of plastic bottle caps to recycling companies.

Schools, local governments and companies collect caps and bring them to community organizations specified by the NPO. When Ecocap receives a certain amount of caps, the caps are sold to recycling companies. The profits are then donated to Japan Committee Vaccines for the World's Children (JCV) to buy vaccines. Every 800 caps pay for one vaccination, which costs 20 yen (about U.S.\$0.20).

Currently, a large amount of polyethylene terephthalate (PET) bottles are used. However, caps are made from plastics with different hardness, allowing them to attach firmly to the bottles. Because materials for caps are different from the PET bottles, they cannot be recycled together. When caps are mixed with other garbage, they release carbon dioxide during combustion, and soil contamination after burial. By collecting caps separately and recycling them, they can be reused in concrete panels, ballpoint pens and chopsticks. Web address: http://www.japanfs.org/en/news/archives/news_id028897.html

Sustainable Haddon Heights invites you to visit them every Sunday from 9:30 am until 1pm at their booth "Sundays near Station with Sustainable Haddon Heights" located in the Haddon Heights Farmers' Market. The group will be having demonstrations on various aspects of sustainability and gardening. Currently, the "Stop Using Plastic Bags" project is underway. Stop by the table after you make your purchases at the market. For each reusable bag you have used, receive an entry into the weekly contest to win a reusable produce bag. Due to demand for the bag, they now also have them for a donation of \$3, less than cost, for anyone who wants them. Many people use the traditional reusable bags at the grocery store but then take many of the small plastic bags in the produce department. They are the least reused bags! These reusable produce bags take the place of the small plastic bags. Forgot your reusable bag, stop by the booth and get a free one to use shopping. It is yours to keep or you can return at a later date. REMEMBER TO BRING YOUR PLASTIC BOTTLE CAPS.

The tentative schedule is:

October 1: Fall Festival - Sustainable Haddon Heights will be participating and have the storm water run-off and heat dome effect models from the Franklin Institute designed for kids and parents alike to participate in learning about these important topics. The Plastic Bag monster will be present so get ready for selfies!

October 2: Planting for Pollinators - Horticultural Society of South Jersey joins the group to discuss plants for pollinators. Seeds will be available for donation so you can help attract pollinators to your garden.

October 9: Fall Gardening - Don't be in such a rush to cut back all your plants in the fall. Learn about saving time and energy while helping wildlife survive through the cold months by leaving seed pods and shelter locations for them.

October 16: "Earth 911" - How to get rid of "Stuff". Where can you get rid of all your clutter?

October 23: Plastic Bags - a visit from the plastic bag monster to remind you not to take any unnecessary plastic bags. The average American receives over 700 plastic bags a year and most are not reused or recycled. The solution is to "REFUSE" them by carrying one item or taking reusable bags with you when you shop.

October 30 - Play the "Is It Trash or Is It Recycle" game. Most residents do not dispose of their recyclables in the proper manner. For example, are corks recyclable? We know, do you?

A HADDON HEIGHTS FAVORITE FOR 31 YEARS

Be on the Lookout for the Plastic Bag Monster!

Have you seen the Plastic Bag Monster? It has been seen roaming the streets of Haddon Heights recently. Perhaps one even lives at your house. It takes about 500 plastic bags to spawn a Plastic Bag Monster. That's about what the average person takes home in a year. Unfortunately, only about 10% of plastic bags are recycled. The rest end up in the landfill, where they will remain forever, or littering the landscape and ocean. Plastic does not biodegrade but photodegrades, meaning that it breaks down into smaller and smaller pieces when exposed to sunlight, but never goes away. Just like diamonds, plastic bags are forever. Many plastic bags will end up in the Great Pacific Garbage Patch, a floating collection of plastic and trash, 80% of which came from land. Its size is estimated to be somewhere between twice the area of Texas to the size of the continental U. S. In some parts of the ocean, the concentrations of plastic is 40 times greater than that of plankton. Marine animals consume the plastic along with the plankton, causing many to die while others become entangled in it. Some of the plastic bags will remain in the landscape, caught in trees or littering the streets, with taxpayers footing the bill to have them removed. Others will be improperly recycled in single-stream collections, where they will become ensnared in the processing equipment, requiring costly manual removal.

Here's some things you can do to reduce the population of Bag Monsters and the problems they cause:

1. Get in the habit of taking reusable bags with you when you shop.
2. Don't use plastic produce bags. Sustainable Haddon Heights is offering reusable produce bags at a subsidized cost of \$3 each. You can pick them up at our table on Station Avenue on Sunday mornings between 9:30 AM and 1 PM or at our booth at the Fall Festival, Saturday, October 3.
3. 4% of landfill is dog poop in plastic bags and it will be there for generations to come. The EPA recommends flushing pet waste. Use flushable doggie poop bags when you clean up after your pet. They are designed to dissolve in water. Flushable cat litter is also available.
4. Be sure to properly recycle any plastic bags you do use. Place them in the collection containers at most grocery stores. Do not put them in with your single-stream recyclables.

Be on the lookout for the Plastic Bag Monster!

Ways to Reduce Food Waste and Save Money

The USDA estimates approximately 20% of the food consumers purchase goes uneaten. Reducing this waste will enable you to spend less on food. Here's some tips that Sustainable Haddon Heights has gathered that you might find helpful in reducing your food waste.

Make sure your refrigerator temperature is between 34 and 40 degrees. Freezers should be set to zero. While cold temperatures can't destroy the microorganisms that cause food to spoil, it slows down food spoilage. If you find that you frequently forget about items in your refrigerator or freezer, organize them so they are more visible. Perhaps something as simple as a lazy Susan will prevent items from disappearing in the back of the refrigerator. Properly store the groceries you purchase so they will last longer. As a general rule, do not wash produce until ready to use. Do not store meat and produce together. Here's some tips for storing specific items.

- Bananas: Wrap the crown in plastic and store on countertop away from sunlight.
- Bread: Freeze what will not be consumed in a day. Do not store in refrigerator.
- Berries (blackberries, blueberries, raspberries, strawberries): Place in solution of one part vinegar to three parts water, drain, rinse, spin gently in salad spinner lined with several layers of paper towels, store in paper towel-lined container in refrigerator.
- Broccoli: Wrap in foil or place stalks in water and store in refrigerator.
- Celery: Wrap in foil and store in refrigerator.
- Eggs: Store in the refrigerator, but not on the door. To determine whether an egg is fresh, immerse it in a pan of cool, salted water. If it sinks, it is fresh, but if it rises to the surface, throw it away.
- Lettuce: Wrap in foil and store in refrigerator.
- Milk: Store on the middle shelf of the refrigerator and not on the door.
- Mushrooms: Keep in original container or in a brown paper bag if purchased loose.
- Potatoes: Store in a cardboard box, paper or mesh bag, away from onions, in a dark place. Potatoes store best at between 45 and 50 degrees. Do not store in refrigerator. A wine refrigerator is OK, but some feel it affects the taste of the wine.
- Tomatoes: Place on countertop away from

sunlight with stem end down or cover the stem end with tape and store with the stem end up. Don't store items that are bruised, overripe, or about to spoil as they will cause other items to spoil more quickly. Use them as soon as possible. Consider purchasing an ethylene gas absorber to delay the ripening of much of your produce. They cost about \$15. Blueapple and ExtraLife are two such products and are available online and at houseware stores. (This is not an endorsement of these products but provided to assist you in finding this type of item.) Purchase locally grown produce when possible. Travel time reduces shelf life. Find new uses for excess food. Use leftover mashed potatoes as a base for potato pancakes. Use a food processor to turn stale bread into bread crumbs. Use sour milk in place of buttermilk for pancakes or cornbread. For storage, use Mason jars instead of plastic containers. They don't stain and cut produce will last longer. Additionally, you won't have to worry about being exposed to the BPA that can be found in some plastic containers. Food is also more visible. Understand the USDA dates on products.

display the product for sale. You should buy the product before the date expires.

- A "Best if Used By (or Before)" date is recommended for best flavor or quality. It is not a purchase or safety date.
- A "Use-By" date is the last date recommended for the use of the product while at peak quality. The date has been determined by the manufacturer of the product. It does not mean that the product cannot be used after that date. However, remember the old adage, "If in doubt, throw it out".

Track what is being thrown out. It will make you mindful of what you are discarding. Perhaps you should purchase less of these items.

Plan meals and purchase accordingly. While this may take a little upfront time, you won't have to think about what to have for dinner and whether or not you have the necessary ingredients.

Rather than throwing spoiled food in the trash, where it will remain for generations in the landfill, consider backyard or worm composting for spoiled produce.

Registration Now Open for HHYA Winter Basketball

Now is the time to plan for your children to stay physically active during the winter months.

This year we are pleased to announce that we have partnered with the junior Sixers program. As part of HHYA program, each registered child will receive a Sixers shirt and 2 Sixers skills clinic sessions. The Sixers clinics will be ran at two of our Sunday rec sessions. Anyone who does not register by the November 1st deadline may be excluded from the Sixers program depending on availability. Don't wait until the last minute to register!

HHYA offers a recreation (REC) league and a more competitive travel league. Registration is now open for all boys and girls in both leagues. The time to register for both leagues is September and October. The REC League offers clinic-style instruction for first & second grade boys and girls allowing the opportunity to teach the fundamentals of the game. For third through sixth grade boys and girls REC, we offer a mixture of clinic-style instruction along with pickup games. Friendly game competition is part of both programs. All registered participants will receive a Wilson basketball and a shirt. The 8-week REC league will begin in January and will be held on Sunday afternoons at the Haddon Heights High School.

The HHYA boys and girls travel league is offered to interested players in grades third through sixth. It's a competitive league that competes against neighboring towns in the Camden County Basketball

League (CCBL). Travel players will need to be committed to weekly practices and games including some weekends. Sunday recreation will not be part of our travel league this year. There will be optional shooting & ball handling workouts for interested travel players on Sundays. These will be scheduled based on gym availability prior to the season. All travel players will receive a Wilson basketball and a long sleeve shooting shirt. Travel teams will be formed in November and practices will begin in December. Games will begin in early January. A \$20 late fee will be assessed for any late registration. Late registrations for travel are not guaranteed and will only be accepted space permitting.

Registration and payment for both leagues must be completed online at www.HHYA.org. The deadline to register for all programs is November 1, 2016. A \$20 late fee will be assessed for any late registration. Any registrations after Nov 1st might also be excluded from the Junior Sixers program depending on availability.

They also help with children who just might be shy. The dogs will provide a calming atmosphere that relaxes the child while the child reads directly to the dog. Come check this program out in action!

Holiday House Tour Needs Homes

The “All Through the House” Holiday House Tour will be held on Friday, December 2. This is the 33rd year of our tour, which traditionally kicks off the holiday season in Haddon Heights. We are still in need of several homes for the tour and would love if you could volunteer yours. Please contact Christopher Walter at 547-7132 if you would like to put your home on the tour. The house tour is one of the library’s biggest fundraisers and all proceeds go directly to the services and materials the library provides to its patrons.

Please call the library for a schedule of upcoming films.

Halloween Movie Series

With a Special Screening of *The Halloween Girl*

The library will once again be holding a Halloween Movie Series on Tuesdays in October. Our movies will begin at 7:00 p.m. The dates are October 4, 11 and 18. You may bring your own chairs if you prefer and don't forget your popcorn! This year's Halloween series will feature a G and a PG rated film, as well as a special screening.

Join us on Tuesday, October 4 for a special screening of *The Halloween Girl*. This short film was done by Emmy Award Winner Richard T. Wilson. Mr. Wilson has won many awards and is best known for his company's critically acclaimed TV/DVD series, *MAPLE AVE*, which focuses on the everyday issues and struggles of teens and their parents. A local resident, Mike Biaselli, was also involved with the production of the film. This film is geared towards parents and their teenagers. Here is a synopsis: Ten years after her tragic death on Halloween night, Charlotte begins to reappear to her mother, Marie, in a series of nightmares – or are they? Only adding to her distress is the news that her young son, Luke, now has a mysterious teenage friend he calls ‘The Halloween Girl’ – and her name is Charlotte. Has Charlotte really returned – and is Marie's dark secret now in danger of being revealed...?

Following the screening, we will hold a Q & A with the creator and director, Richard T. Wilson. This short film has won several awards, including the 2015 Best Shorts Award Winner and the 2016 Gold Remi Award Winner at the Houston International Film Festival. This is an entertaining and thoughtful film about loss and family. It is not your typical horror movie. Call 547-7132 for more information.

The Community Center is located at 321 Seventh Ave. It offers a spacious main room with french doors leading to a fenced in yard. It is equipped with a full kitchen & sound system. Round tables & padded chairs are supplied and set up for you by the borough for each event. The Community Center accommodates up to 100 guests.

If interested in renting one of your hometown's facilities, you can find all the information and pricing on the borough's website at www.haddonhts.com. Just select rentals from the list on the left and select either the Community Center or Cabin for their specific rental information. Both pages offer a slideshow of photos taken of the facilities (some items pictured were rented from an outside source and brought in by the renter.) You will also find a link to a PDF version of our required rental agreement paperwork.

The spaces are rented on a first come, first serve basis. If you are interested in a specific date we recommend calling the office at 856-547-7164 ex. 36 to see if the date and time you would like are available. We can put a tentative hold on the date, while you fill out the paperwork and send it/drop it off to our office along with the required security deposit check. and also a link to print out the required rental agreement. These tentative holds last for a short period of time before they would be released to the next renter. If you have questions or would like to check on the availability of a date/time, please contact Julie Yuhaze at 547-7164 ext. 36 or email at jyuhaze@haddonhts.com.

If you would like to see the facilities before your event you can contact Pat Cooper at 856-546-2580. Pat will be able to schedule a time to take you over and show the space and answer any questions you may have.
