

# Kids Yoga

Children derive enormous benefits from yoga. Physically it enhances their flexibility, coordination, strength, and body awareness. In addition, their concentration and sense of calmness and relaxation improves. In this series we will explore the senses by engaging in fun and helpful breathing techniques. We will explore the poses through yoga decks for children which include all the traditional poses with a child friendly approach. We will dance, sing, connect, breathe, do poses, learn how to focus, pay attention and of course we will relax. In addition, if time allows we will do several arts and crafts. Please encourage children to wear comfortable clothing, bring a mat or towel and a water bottle.
