

BEGINNING GUITAR

Beginning Guitar is a course designed to acquaint individuals with basic guitar techniques. The sessions will be presented in tablature which will eliminate the need to learn traditional music notation. We will cover subjects like the playing of single note melodies, chordal accompaniment and simple solo guitar concepts. Emphasis will be placed on playing songs rather than music theory and boring technical exercises.

Students will need to bring the book "Mastering the Guitar 1A" by Mel Bay Publishers along with their Guitar to each class.
