THE HEIGHTS REPORT

The Official Borough Publication

Down By The Station Day

All Aboard! It's time for our Borough's annual, one of a kind event - *Down By The Station Day*. Circle **Saturday, May 13** on Your Calendar for this rain or shine event. Festivities will last from 10 to 3 with our historic Railroad Station taking center stage. The Delaware and Susquehanna Model Railroad Club will have the passenger station open and their large HO scale train platform will be running at full steam. The West Jersey Chapter of the National RR Historical Society will show "real" train videos from 10-3 at our Town Hall Auditorium while the Library will show kiddie train videos. The Borough will again sponsor a free trolley ride along Station Ave and Cannon Park from 10:30 to 1:30; boarding spots are at the Library and Carole's Candy Corner. The Borough will provide free engineer hats for kiddies while the supply lasts. Visit our town's new Railroad centric store; all of our merchants will be open for your Mother's Day and spring shopping. Yum, our town eateries have plenty of good food to

keep your energy level up. For your added enjoyment, the Haddon Heights Business and Professional Association will sponsor the Pine Barons Singing Group who will rove Station Ave to entertain you. Down by the Station Day was started by former Councilwoman Rose Fitzgerald to draw attention to our RR Station and to celebrate "Golden Spike Day", which marks the joining of railroad tracks from the East and the West to form the first US Transcontinental Railroad. MAYOR'S MESSAGE:

Dear Neighbors:

Fortunately, we made it through winter without too much snow. The few times that we did have some wintry weather, our employees were out in force keeping our roads clear and our town safe. I want to thank everyone who handles this important job for us - it often requires hard work at all hours of the day and night in sometimes bitter cold temperatures.

The spring season brings so many events and activities that we all look forward to. Although I cannot possibly list them all here, I encourage you to read this edition of the HEIGHTS REPORT in full and check out our Borough website at haddonhts.com for details on all of the fun upcoming events. There really is something for everyone - from our youth sports to our senior programs to our terrific community events organized by groups like the Neighbors Night Out Committee.

You may have seen those new bright

field lights at the Devon Avenue soccer complex. This is the culmination of the efforts of many people over several years. Your government worked closely with the Soccer Club to address this project in a fiscally responsible manner. We worked to ensure that the lights were installed over the winter so that the fields would be ready for the season. So many people worked on this project and I cannot possibly thank them all, but I do want to recognize the hard work of Councilwoman Kathy Lange. Her dedication and leadership went a long way to making this project a reality. I know Kathy is always working hard on our Programs; I hear she is planning another terrific Summer Rec program. Keep an eye out for information on this popular program.

This is the time of year when your government is working hard to get our budget done. The budget process is extremely complex and is

often influenced by factors beyond our control such as health insurance premiums - which I know is something we all have to deal with in our own lives. You can rest assured that we are very careful with how we spend your money. There are several layers of review in place before any dollar is spent. We cannot ignore our obligations; we have to spend money to keep our town operating, but we will not ask you for more than we absolutely need. Also, I encourage you to pay close attention to the County and School Board budgeting process. Although the Borough is responsible for collecting all of your property taxes, approximately 21% actually goes to the Borough - the remainder goes to the School Board and to the County.

As always, I am open to any suggestions, thoughts, or comments our residents may have. Please feel free to reach out to me to share anything that might be on your

mind. Often, we can resolve issues people have with their government just by sitting down and talking. I am always happy to work with our residents to do so.

Enjoy the spring, and please remember that with more daylight, our children will be moving around town and playing outside. Please drive carefully and keep everyone's safety in mind.

Mayor Jack D. Merryfield

Delaware & Susquehanna Model Railroad Club

Many of you have visited the Delaware and Susquehanna Model Railroad at the Station or during our January Haddon Heights Shows. We are often asked what we are modeling and from where the various scenes are taken. The railroad was originally designed to replicate the Pennsylvania Railroad in the 1960s. Some scenes could be from the PRR in the 1950s as well. The individual modules are built to capture the era in small towns as in the Shardsburg or Falls modules. Industrial scenes are captured in the East Trenton and Picciotti Engineering

modules. The more rural aspects of the railroad are found in the Lycoming Junction and adjoining modules.

We are currently building two new modules to capture the logging and anthracite coal industries. Some of the module names are obviously taken from actual locations with selected significant features incorporated as design elements. The railroad is modular in design so that it may be transported to train shows or other locations. The layout has had several homes over the past 30 years. While we remain committed to modeling the PRR for track and signals, members of the club individually operate their equipment from a wide variety of railroads and eras. Stop by on Down by the Station Day to see the progress.

A HADDON HEIGHTS FAVORITE FOR 31 YEARS

Haddon Heights Good Neighbors

Finally, the warmth of April and spring has arrived bringing a breath of fresh air. We love the blossoms on our trees and flowers in our garden. We love the longer, warmer days to take daily walks around our fabulous town.

What we may not be aware of, however, is what might be happening within the homes of some of our neighbors. Instead of taking the time to enjoy the beauty of our neighborhood or taking long walks to appreciate this beauty, some of our neighbors are still burdened from the effects of the winter. The cold winter may have put a strain on their utility bills. Or, possibly, they got one of those long viruses and the cost of medicines prevented them from making this month's rent. Fortunately, the Haddon Heights Good Neighbors (HHGN) organization is able to brighten up their days and put a new "spring" in their step.

HHGN was formed in 1979 to provide short-term financial assistance of a material nature to residents in need. As an organization of the people, by the people, and for the people of Haddon Heights, we pride ourselves on helping members of our town when they are struggling. After all, shouldn't a sense of community come with a sense of responsibility?

One way of helping HHGN to accomplish its goal is to join the organization which typically meets the 1st Wednesday of January, May, September, and November. These meetings are held in Borough Hall at 7:00 PM. New members are always welcome.

Another way is to make a donation to the organization which will be used to help residents in our community. Whether it goes toward rent, utilities, groceries, or home repairs, we investigate every request and independently determine its worthiness. Our hands-on approach ensures that money goes to where it is needed the most.

WHO ARE THE HADDON HEIGHTS GOOD NEIGHBORS? YOU ARE.

Haddon Heights Good Neighbors is a non-profit, non-sectarian, non-political organization. It has never had a paid employee or officer. All work is done by volunteers, and anyone who makes a donation is a member. No donation is too small and no act of kindness is too inconsequential! There are a couple of ways you can make a donation. You may use PayPal with the following link: <http://www.hhgoodneighbors.org/donate.html> Or, if you wish to make a donation by check, please make the check out to HHGN, and mail it to:

Project Medicine Drop

The Environmental Commission and the Borough of Haddon Heights are in support Project Medicine Drop. One of the goals of this program is to ensure that prescription medications are kept out of the water system and disposed of properly. Drugs that are flushed down the toilet ultimately end up in our drinking water and have been known to effect fish and other wildlife. Samples taken from 50 large-size water treatment plants nationwide tested for 56 drugs including oxycodone, high blood-pressure medication and other over the counter medications such as Tylenol and Ibuprofen. Medications are collected periodically at Borough Hall and transported to the Covanta Camden Energy Recovery Center. The Covanta Facility is the same location that your household trash is transported to for disposal.

You can anonymously drop off old expired medications, medications you no longer use, and other drugs. Whenever the Borough building is open to the public you can dispose of your unwanted medication/drugs at your convenience. The mailbox style drop-box is located in the Borough hall, at the Police Department courtesy window. You do not have to check-in with the police department, just deposit into the box as you would a mailbox. Medications need to be secured in bags or their original containers. The medicine drop box is not for the use of doctor's offices, nor pharmaceutical businesses, that need to dispose

of medication.

Anyone dropping off medicine should first:

- Minimize as many containers as possible (combine medications in as few containers as possible, then recycle the old medicine bottles and boxes). HHPD must empty and store the contents of the medicine drop box until they are ready for destruction at an approved facility; we do not have unlimited storage capacity.
- Do not drop off vitamins. Vitamins can be disposed of in your regular trash
- Liquids, such as cough medicine, Benadryl, topical ointments, etc., are not permitted for disposal in the box
- Needles and hypodermic syringes are not permitted
- It is recommended that you take the patients name off of the container
- Do not drop off empty containers, we just place them in the recycle bucket

On weekends and after business hours you can make arrangements to have an officer let you into the building to use the drop box. Any questions contact Captain Mike Scardino, 856-547-0614, ext. 12.

More information about Project Medicine Drop, including a full list of Medicine Drop locations, can be found at www.NJConsumerAffairs.gov/meddrop.

Kindness Rocks and Playing Rolls in Haddon Heights

The Haddon Heights Department of Parks and Recreation hosted a free event on February 17, 2017 with the generous help of Paint-a-Treasure Studio of Haddon Heights. Kids of all ages were invited to come out and draw their ideas for Small Explorer's Playground at Hoff's Park, the new toddler friendly playground that is being planned for the park space on West High Street. Over 40 kids came out to give their ideas which

are displayed in Paint-a-Treasure's studio. After drawing their ideas the kids were able to take part in decorating kindness rocks. Kindness rocks are hand painted, palm sized rocks that are painted with the intent to spread cheer and a smile. After decorating the rock, the artist leaves the rock somewhere around town in a safe but public area to spread joy to others. If found, the rock can be kept or moved to another

location to continue spreading cheer. This activity, so fitting for our "Friendly Community," is a fun and easy family friendly activity that we hope continues in Haddon Heights. If you would like to participate in #HeightsRocks, join the Facebook group @HeightsRocks and follow us on Instagram @heightsrocks. And keep an eye out for kindness rocks around town!

Small Explorer's Playground Update

The community ideas that were shared at our September and February input sessions have helped shape the design of the playground. We are grateful for

local Girl Scout Troop 30751 for their research and presentation on the History of Hoff's Park as we look to expand the park's offerings but pay tribute to its history. Final equipment plans for Small Explorer's Playground (which will be an additional playground, to be built behind the existing equipment) have been unveiled and are available for review at Borough Hall. Please follow Small Explorer's Playground updates on Facebook and help

us get #openforplay by attending fundraising events and gathering donations. If you would like to donate to the Small Explorer's Playground project, donations of any amount may be made by check payable to the Borough of Haddon Heights/Parks and Rec, indicate playground reserve on the memo line. Donations can be mailed or dropped off to Borough Hall, 625 Station Avenue, Haddon Heights, NJ 08035.

Haddon Heights Elementary Parent Teacher Group

The Haddon Heights Parents Teacher Group continues to plan and present fun and exciting activities for our three elementary schools all year. We are honored to have bestowed over \$3000 of grants through our HHPTG Grant program. This year a panel of parent volunteers read, assessed, and scored the submitted grants and we are proud to have been able to award money to each applicant. We thank Mr. Baals, Ms. Lindley, Ms. Wrentzel, Ms. Lunsford, Ms. Fitzgibbon, Mr. McAndrew, Ms. Mueller, and Ms. Boyd for their submissions.

This year there was a wide variety of requests, from theater club, sensory stools, social skills group, and continued funds for our district-wide character education initiative. Thank you to all our parent volunteers and to our committee chairperson, Kathy Lewis.

The third Annual Designer Bag Bingo was held on March 8 with ten rounds of bingo, basket raffle, and 50/50. We were pleasantly surprised by the success of our first annual vendor fair too. We would like to thank all who attended this fun night out, and especially to our awesome DJ, Ralph D'Amelio. Our event could not have been a success without the donations from local businesses, and the volunteer efforts of the bingo committee and the chairs: Kathy Lewis, Danielle Linaris, and Jackie Schroeder.

On March 15, all three sixth grade classes joined together and hosted a Senior Citizen dinner for members of our community. With a St. Patrick's day theme, the students presented a meal of corned beef, cabbage, and ham in the high school cafeteria. Dessert and raffle prizes helped to make this event a success and continues this tradition of service for our oldest elementary students. We thank our sixth grade class parents who planned and facilitating the very special dinner.

Our Science Fair brought out a wide variety of scientists on March 23 at Glenview School. While this event is non-competitive, participants were interviewed by members of the committee and presented their findings to the panel. Displays were then available for observation by the general public after the interview process. The night was very

entertaining and interactive for all. HHPTG would like to thank co-chairs, Linda Schrieber and Arpita Patel for their tireless dedication and to all those on the Science Fair committee.

Theater Week occurred the week of March 27. Open to any interested student in grades 2-6, this event is always popular and fun. Students presented a full scale musical production in five short days! Roles were provided to all who wished to participate and on the evening of Friday, March 31 the entire community was invited to the performance of The Rotten Princess. Thank you to all that participated and to our amazing chairpeople: Antonella Kressel and Paula Caraballo.

The Walnut Street Theatre Company will present an interactive theatre experience to our students the last week in April. "Nick Nutrition and his Dog Fiber" Students will learn about healthy eating choices, and the importance of exercise, as Nick Nutrition battles the evil couch potato. Thank you to our assembly chairpeople: Coleen Copper and Jen Fugues for a year filled of fun.

Our final PTG meeting will be held May 10 at 7:11 pm as we take a moment to celebrate and honor all those parents, teachers, and friends of our schools who have volunteered this year to make our HHPTG a success. More information will follow.

Save the Date and get out those running shoes! Run Like It's Recess 5k Run and 1-Mile walk is back for a fourth year, Sunday, May 21. This event is open to all members of our community. Register online at www.LMSports.com by May 12 to guarantee a t-shirt. Race day registrants will receive a t-shirt while supplies last, sizes are not guaranteed. Contact Danielle Linaris at dalinaris@gmail.com for more information, to volunteer, or to make a donation to this fun event.

Please join us for our Annual Art show on Wednesday May 31 from 6 - 8 pm at Glenview School. We thank our talented art teacher, Mrs. Michnowski for her guidance. Each student presents multiple pieces of art displayed throughout the school. It truly is a night we look forward to every year.

and checkout procedures and every activity is well staffed. Please see the Registration Form for exact dates, fees and payment schedule.

SHEPHERDS PALM SUNDAY

On Palm Sunday, April 9 at 10:45 am, the Shepherds Department of special needs students performs their Easter Program entitled, “Christ Outside.” Students will depict the life of Christ outside of Heaven, born outside in a stable and crucified outside of the walls of Jerusalem, all so he could live inside of our hearts.

ANNIVERSARY MONTH

February at Haddon Heights Baptist Church was Anniversary Month, and this year the borough's first church celebrated its 119th year of service to the Lord and to this community. On Sunday, February 5, the church held a special event commemorating the anniversary. That morning, after a special worship service, an all-church luncheon was enjoyed by the congregation. A Service of Celebration followed with lots of great music, a presentation of the history of Haddon Heights Baptist Church and a challenge from former church pastor Rev. Terry R. Smith.

AWANA

Awana, which stands for Approved Workmen Are Not Ashamed, is a kids club for children ages 3 through 6th grade. Emphasis is on wholesome game activity, Scripture memorization and Bible-based teaching. Awana meets Wednesdays, September through April, from 7:00 pm to 8:30 pm. All are welcome and parents of clubbers may attend Bible Study groups, held at the same time as club.

March was Grand Prix month in club. Clubbers and their parents designed and fashioned race cars from blocks of wood for design and speed competitions. On Friday, March 17, a great evening of family fun and excitement culminated with the awarding of Grand Prix race and design trophies to winners of the

competitions. March was also Speed Stacking Month on Wednesdays in club. Clubbers honed their cup stacking skills during Game Time competition.

Awana concludes its club year in April with Leader Appreciation Day, a birthday cake bake-off and the final Awards and Recognition Program. Clubbers who have achieved handbook goals will be honored for their accomplishments.

VACATION BIBLE SCHOOL

Haddon Heights Baptist Church is happy to announce that this summer's Vacation Bible School will take place from July 31 through August 4th. “Ocean Commotion” is the theme, and kids should be prepared for a boatload of excitement as they dive into Noah's flood to learn how he was able to Stand for God, Obey God, Trust God, Thank God and Fear God. Just like Noah, they will learn how to find grace to stand against cultural tides. And, they will discover how Noah was able to fit all those animals on the Ark!

VBS is free for kids age 4 through 6th grade and runs from 9 am-12 noon each day the week of July 31. To register, go to www.haddonheightsbaptist.org/vacation-bible-school and click Download VBS Registration Form or Register For VBS Online. Or, call the church office at (856) 547-3579. Watch for our VBS float in the borough's 4th of July parade.

DAY OF PRAYER & GRANNY CLUB

Haddon Heights Baptist Church believes that a foundational reason the church has been in existence for 119 years is the commitment of its members to praying for one another. Wednesday Prayer Meeting has been in existence for all of those 119 years. Now, the church is adding a monthly Day of Prayer to lift up the fellowship in prayer to the Lord around the clock on the second Tuesday of every month. In addition, a Granny Club will meet on the first Thursday of every month for grandmothers to meet and uphold their grandkids in prayer.

MEN'S BREAKFAST

April 22 at 8:00 am the men of the

(Sunday Night After Church) for fun, food and fellowship. The group has also recently begun a new believer's Bible study. Called Alpha Group, they meet every Monday evening at 7 pm.

Haddon Heights Baptist Church maintains housing for missionaries on furlough. Presently enjoying our facilities is Susan Hossack, language specialist missionary to France.

Please Don't Buy Baby Chicks at Easter

Please don't buy baby chicks at Easter. Most retail stores must sell you a minimum of 6 to prevent impulse buying but parents will still buy 6 and get home only to realize they are not legal in their town, they need to have a coop and all that goes with it and then they have a dilemma. The stores will not take them

back. Also, you have a good chance of getting a baby rooster. The ordinance in Haddon Heights requires a 150 foot setback and a permit. There are a few residents in Haddon Heights working on a possible pilot program in Haddon Heights but it takes time to be successful. If you purchase chicks now, you would be violating the current ordinance and risk a fine as well as being forced to get rid of your chickens. For more information about the possible pilot, call (856) 858-6644 and visit the Sustainable Haddon Heights Facebook page.

Mowing - Grasscycling - Cut It and Leave It

Grasscycling is the act of allowing grass clippings to remain on the lawn after mowing to return nutrients back to the soil. The fertilizer content of typical grass clippings (by percent of weight) is: Nitrogen (N) = 4%, Potassium (P) = 2%, and Phosphorus (K) = 0.5%. Grasscycling throughout the mowing season can actually reduce your need for fertilizers by as much as 25%. Grass clippings are thus too valuable to throw away.

A standard discharge lawn mower, with either rotary or reel type blade configurations, can be used for grasscycling without problems as long as you follow the one-third rule.

**CUT IT HIGH
and let it lie**

Mulching (grasscycling or recycling) mowers are specifically designed to finely chop grass clippings and return them to the lawn to return nutrients to the soil. Some rotary mowers offer multiple options, allowing you to use standard discharge, to mulch clippings, or to collect clippings in a bagging unit for disposal. Grasscycling also saves the labor of collecting and bagging clippings and it reduces the "yard waste" component in landfills.

Based on a 1992 study, the U.S. Environmental Protection Agency (US EPA) estimated that "yard trimmings" including grass clippings, leaves, branches, brush and other plant materials, accounted for 17.9% of the total municipal solid waste, by percent of weight.

Since 1960, when yard trimmings accounted for 22.8% of the total, this percentage has declined each decade, as follows: 1970 - 19.0%; 1980 - 18.2%; 1990 - 17.9%. Grasscycling is

Grasscycling is the number one way to reduce your waste.

the primary reason these percentages have dropped – and continue to drop.

Most, if not all, studies of municipal solid waste are based on curb-side or landfill destination truck weights. Accordingly, 100 pounds of grass clippings weigh the same as a 100-pound refrigerator and they would be considered "equal" contributors to a landfill.

However, grass clippings are 90% water. The remaining 10% is very degradable, unlike the refrigerator and many other landfill components such as plastics, metals, glass, construction debris, etc.

If calculated at their dry weight, grass clippings would not be more than 2% of the total landfill volume and this volume will biodegrade very rapidly, helping to improve landfill soils and assist in degrading other organic matter.

Mowing 1,000 square feet (92.9 square meters) of lawn will generate 200 pounds (90.718 kg) of clippings annually. One ton (.9 metric ton) of clippings will contribute only 200 pounds (90.718 kg) of decayed matter to a landfill.

But why would you want to expend the time and labor to collect and dispose of grass clippings, when grasscycling is such an obvious benefit to your lawn – and the environment? Grasscycling saves cents and makes good sense.

Improper Mulching Can Kill Your Trees!

It's that time of year when everyone wants to clean-out and freshen-up their garden beds. They like the "pleasing" look of mulch without the presence of leaves. Rather than rake up the leaves and put them out

for the town to compost, consider using a mulching mower and leave the clippings on the lawn as fertilizer. Or, catch the clippings and use as free, beneficial mulch in your garden beds. It is more "earth-friendly". Don't like the look of shredded leaves? Put a thin layer of more attractive mulch on top of them.

There are many "green" benefits to applying mulch. Less fertilizer is needed since the mulch slowly decomposes, improving soil fertility. It also helps maintain soil moisture, decreasing the need for extra watering. Weeds are prevented from germinating and growing, so herbicides are not needed. Mulch keeps the soils cooler in summer and warmer in winter. Mulch also makes maintenance easier and helps prevent damage from mowers or string trimmers.

Unfortunately, there is a practice that the general public now thinks is the proper way to mulch around a tree or large shrub. It is referred to as "volcano mulching". We all have seen it, especially in shopping centers, apartment complexes and even on public property. With this type

of mulching, the mulch is applied directly next to the trunk of the tree, often extending a foot or more up the trunk. This kind of mulching is very dangerous to the tree and can actually kill it. It is among the leading cause of mortality in freshly planted trees. It makes the tree more susceptible to fungus, insects and rodents, particularly voles which eat the bark and roots. It also prevents water from reaching the root system of the tree. You can see an example of "volcano mulching" in the photo. Even landscapers are guilty of doing this. They want to please their customers who insist on it because they think it is the right way to mulch.

The correct way of mulching is called "donut mulching". A ring of mulch, generally advised to be about 3 inches deep, is put around the tree extending out as far, when possible, as the branches extend. Minimal mulch, a thin coating at most, is

placed within about 3-4 inches of the trunk. Therefore the mulch closest to the trunk is in the shape of a donut.

Sustainable Haddon Heights encourages you to mulch properly. Do not follow the lead of your neighbors, family or friends. Be a leader and an educator and tell others - even a professional if you hire one - about the proper way to apply mulch. Your trees will thank you!
