Please complete sections – A, B, and C:

(A) Type of addition – Check all of the appropriate boxes:

- Kitchen
- Living Room
- Family Room
- Garage
- Basement
- Bedroom
- Bathroom
- Sunroom
- Other _____

(B) Please calculate the square footage of the largest floor of the existing home. (Usually the 1st floor)

(Existing) L x W= _____ sq. ft.
(New Addition) L x W= _____ sq. ft. % _____

An inspector will verify the dimensions upon a field visit.

Please read and sign only ONE (of the 3) following statements.

- (1) The area (square footage) of the addition is 5% or more, but less than 25% of the largest floor of the existing building, so I will be installing hardwired interconnected smoke detectors with battery back-up in each story/level of the dwelling, including the basement.

Date: _____ Signature _____

(2) The area (square footage) of the addition is equal to, or more than 25% of the largest floor of the existing building, so I will be installing hardwire, interconnected smoke detectors with battery back-up in each story/level of the dwelling, and in each existing new bedroom of the dwelling, including the basement.

Date: _____ Signature _____

(3) I already have hardwired, interconnected smoke detectors with battery back-up in the dwelling, and meet the code requirements as set forth in #1 or #2.

(C) Please indicate the total number of smoke detectors:

*Existing _____ New _____

***NOTE:** Existing smoke detectors must be AC hardwired, interconnected to other smoke detectors with battery back-up to meet the code requirements.

If the existing smoke detectors **DO NOT** meet the code requirements, they **MUST** be replaced.

This form must be completed and submitted along with the permit application, prior to approval and issuance of the construction permit. If you have any questions, please call (856) 546-2580.
